EDITORIAL NOTES.

First Assistant Postmaster-General Hottel, in his report, says that there has never been so little complaint of dishonesty or inefficiency, as now. There has been an increase of 1,632 offices during the last year, 68 of them on this coast. Increase in money order offices, 421; removals and suspensions during the year, 318. Collected \$2,000 from publishers of second-class matter for violation of the law in enclosing third-class publications. The report of the inspector who investigated unlawful dispatch companies, shows the department is losing thousands of dollars annually by their competition.

"We continue to have an overflowing treasury and more money than we know what to do with," said Secretary Folger to a reporter. "Our balances are now upward of \$155,000,000, and revenues continue to daily pour in to the amount of \$1,000,000." In reply to the inquiry as to what use the surplus money would be applied to the Secretary said: "There is but one thing to do, and that is to call in the 3 per cents, although a very strong opposition exists among a certain class of financial men in New York as to the calling in of those bonds."

Men advanced in life can very well recall the last fifty years. What a change! The steam engine was just coming into full play. Gas was a novelty. The railway and steamship were unknown. The newspaper was a weekly rarity even in large towns and cities. Double that time and all these things were unknown. The modern or "Anglo-Saxon civilization" was only just beginning to dawn—the application of the forces of nature to rotary motion and productive work was in its infancy.

The Empress of Russia has just ordered a fur-lined, gold and diamond-encrusted cloak, at a cost of \$45,000. Of course you will cut out this paragraph before you give the paper to your wife to read.

FOREIGN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Bitter News.

CONSTANTINOPLE, October 22.
 Later details confirm the first accounts that the earthquake in Anatolia was greatly exaggerated. At Van, near Smyrna, where two hundred houses were wrecked, only two persons were killed and seven injured. One thousand inhabitants are quartered outside the ruins of the village. Ten hamlets near Chemes, suffered more or less; altogether 57 were killed and 150 injured in that district. The foregoing numbers of persons killed represent the total loss of life. Although 14,687 persons were rendered homeless, all are being fed by the authorities in obedience to the Sultan's orders, the sick being placed under shelter and attended by the doctors. At Chemes only twenty houses sustained damage, in most cases slight.

Pretty This.

LONDON, October 22.
 General Pryor, O'Donnell's American Counsel, in an interview, said he was satisfied O'Donnell killed Carey in self defense. It would be proved beyond doubt that O'Donnell went to Africa with no design of killing Carey, and was not aware of Carey's presence. He thinks manslaughter is the worst he can be convicted of.

Chinese Hospitality.

HONGKONG, October 22.
 Advice from Yuneman confirms the report that the Chinese are assisting the Black Flags in Anam, who number 3,000 men, exclusive of those in the garrison at Bachinh and Son-tag. The Viceroy of Canton objects to foreigners traversing the streets.

A \$45,000 blaze took place at Annapolis, Maryland, to-day.

The wife of John Russell Young died at Paris, France, this morning.

Fears are entertained that the Chinese army is preparing for a war of extermination against all foreigners.

Princess Victoria, daughter of Crown Prince Frederick William, has been betrothed to the hereditary Prince Anhalt.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Greeley Relief Party.

WASHINGTON, October 22.
 Secretary Chandler has written Commander Wildes of the Yantic with respect to the failure of the expedition for the relief of Lieutenant Greeley. He said: "You were instructed to proceed to the northward, through Davis Strait, but not to go beyond Littleton Island with the vessel. The Proteus passed this island July 22d, and was crushed in the ice the 23d. The Yantic did not reach there until August 2d. Between these dates the Garlington party of the Proteus came to Littleton Island and Pandora harbor, and, not finding you, continued south in open boats in search of the Yantic. Had the Yantic been at Littleton the 28th day of July instead of being 12 days behind the Proteus, the Garlington relief party would have remained at that point with ample supplies, and waited Lieutenant Greeley, whose orders required him to reach that vicinity not later than September, 1883, and who would not then have been fond of awaiting him as is now the case, if he has successfully obeyed his orders, with neither house nor provisions, but only the record of a complete failure of the mission after the Proteus and Yantic. It appears to the Department that you disobeyed orders and thereby defeated the object of the expedition. You will make such explanation on this point as you are able."

To this Commander Wildes replies: That the boilers of the Yantic were in an unreliable condition and when ordered to fit for a northern cruise, repairs were pushed night and day to hasten the departure, but not being finished on sailing day, material for completing the work was put on board and repairs continued from time to time to God Haven. Knowing that from thence northward the main dependence would be in the engines I determined to get the boilers in fair condition before leaving. This took six days. One day was then taken to get coal from the brig Peru, which had just arrived; then, thick, stormy weather set in which delayed the departure two days. He arrived at God Haven with but 170 tons, and more time was lost, so it was July 25th before he could leave. Six days more were lost by a dense fog, and on the 31st he cleared Upernivik for sea. No time was lost and no unnecessary delay made at any point. Had he sailed from God Haven the same time as the Proteus, beside not being able to keep up with her he would have arrived at Littleton with a coal supply reduced to 75 tons, and a boiler in a leaky and precarious condition.

He reached Pandora to find the boats had gone south six days before. He considered it his first and imperative duty, on learning of the loss of the Proteus, to pick up the boats which contained thirty-seven men, and having done that, it would be time to consider what next. Having made a long and unsuccessful search for the boats, a heavy pack of ice moved down beneath the Yantic, preventing her return northward, and leaving no alternative but to proceed to Upernivik. The letter concluded as follows: "The memorandum marked 'enclosure' with no date or signature, which I presume are supplementary instructions, so often spoken of, was not heard of by me until my arrival in St. Johns, nor seen until now. I am prepared to shoulder all the responsibility which properly belongs to me, and if this statement is not satisfactory, and there still remains doubts in the Department that I have not done my duty as an officer of the United States Navy, I respectfully request that a Court of Inquiry may be ordered on my conduct, as I do not wish to rest under the imputation that I heedlessly and unnecessarily left Lieutenant Greeley and party to the possibility of perishing by starvation. I am Sir, your obedient servant."

(Signed) FRANK WILDES, Commander U. S. N."

Fatal Affray.

AUGUSTA, Ga., October 22.
 There was a bloody fight yesterday near McBurn church. Last Saturday there was a difficulty between two young men, Lyms and Rogers, at the base-ball ground, during which Lyms cut Rogers in the hand. After church yesterday the difficulty was renewed, when Thomas Lyms and his sons Frank and Thomas were shot by I. B. J. M. and Warren Rogers and Rufus McNorrel and John Cox. Thomas Lyms was shot five times and killed; Frank and Tom Lyms were mortally wounded; John Rogers was shot in the face by Frank Lyms fatally. All the parties are respectfully connected and well-to-do farmers.

Possible Clue.

PITTSBURG, October 22.
 A telegram from St. Louis, stating that a clue found to the whereabouts of Charlie Ross, has been corroborated by a statement by a gentleman here from Wyoming, who says that Henry Mosher, a brother of Mosher, who admitted the kidnapping of Charlie

Ross, was lynched near Cheyenne five weeks ago. Mosher begged that his life should be spared for 24 hours, and said he would give the world information for which it had been seeking for years past. He admitted having the custody of a person held for ransom, for more than a year, and said he had been driven to the far West by the hot pursuit of detectives. Time was not allowed, and the secret died with him. The crime for which Mosher was lynched was the killing of J. H. Wentzell and a murderous assault on John Knight.

The Mormon Missionaries.

NEW YORK, October 22.
 A party of 36 missionaries, on their way from Utah to Europe, reached this city this morning. They were accompanied by Geo. Q. Cannon, Jno. T. Cairns, his successor in the House of Representatives, Mrs. John Q. Cannon, who is going to join her husband in Switzerland, Mrs. John Reeve, wife of the general ticket agent of the Utah railroad, Mrs. Mary Long, who is going to meet her husband in India, and E. S. Richards, who comes here on legal business, with his wife. The party of missionaries are to sail for Liverpool, and from there they will be distributed throughout Great Britain, Scandinavia, Switzerland, Germany and Austria.

A Lively Campaign.

BOSTON, October 22.
 The political canvass is becoming very warm. Robinson and Butler are each making two and three speeches a day; special trains being run to allow them to visit the various towns and cities. Both indulge in personalities and both claim the victory as assured. Butler still clings to the story that the tanning of human skins is an industry in Massachusetts, and on Friday sent a man before the United States Senate Committee to testify to that effect.

Still Searching.

ST. LOUIS, October 22.
 Christian K. Ross, father of the long-lost Charlie Ross, has been in Edwardsville, Ill., and this city, two or three days, attempting to get at the truth of a story told by one Donnelly, who is under sentence of one year in the penitentiary, but nothing came of the investigation.

WESTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Yellow Fever.

SAN FRANCISCO, October 22.
 Albert F. Andrade, a Mexican gentleman, who has arrived here by rail from Guaymas, says the yellow fever is still prevalent in that city, notwithstanding all reports to the contrary, and that it continues to be of a most virulent type. Mr. Andrade left Guaymas six days ago. Colonel Corra of the Mexican army, is among the latest victims. The fever is said to have been brought to Guaymas from Panama by a family named Forerado, one of the members of it having died a few days after landing. At Hermosillo over 700 deaths have been reported, and the fever is still raging, with most fatal results.

The Champion Foot-Racer.

PORTLAND, Or., October 22.
 The foot-race between Kittelman, claiming to be the champion runner of the United States, and Martin, a celebrated local runner, for \$2,000, a mile, distance 100 yards, took place yesterday afternoon, and resulted in a victory for Kittelman. Time 9 3/4 seconds.

—The first annual exhibition of the American horse show opened at Madison Square, New York, to-day. Four hundred horses are entered.

—This afternoon at 2:30 a Danish steamer from Copenhagen, with 500 people on board, commenced signaling while off Fire Island, for assistance from New York. She is on fire.

The Palace Hotel seems to be the headquarters for about all the horsemen in town. They know where to go for good usage.

The painting on that magnificent show window at Osburn & Shoemaker's reflects credit upon the artist, Mr. Updike.

To-morrow there will be a running race, mile heats, three in five, and a trotting race, 2:40 class. Liberal purses for both.

No advance in prices at the Palace restaurant on account of the recent fifty cents buying the best meal you ever surrounded.

After visiting every other grocery store in town, if you call at J. K. Everett's, you will say that none of them keep any better assortment or better goods.

The joint for the second story of the new brick building, going up on the corner of Commercial Row and Sierra street, are in place.

One of Knowles & Bainbridge's cooking ranges will do more to make home pleasant, than a whole set of Dickens' novels.

If you have not seen those elegant cloaks, wraps and shawls at F. Levy & Bro.'s, call at once, for they are selling so low that anybody can afford to buy.

Gilson's two story house, which is being moved from Plaza to the corner of West and Fourth streets, travels slowly, but is being carefully handled.

No matter how early you want your breakfast, there is always a cutter in J. D. Pollard's market ready to supply you with the best cuts of the very best beef.

No one who drinks nothing but J. J. Becker's Fredericksburg beer, will ever be sent to State prison or the lunatic asylum; there is no murder, larceny or lunacy in it.

If you will compare the dry goods prices of Stern Bros., or any other advertising fraud, you will be convinced that so long as S. M. Jamison does business in Reno, that nothing is saved by sending away from home.

People who have had experience, all agree that a man can come a little nearer guessing the winning horse by moderate use of the liquids at Chase & Thyes', than by the sworn testimony of the most conscientious jockey.

Home Volcano.
On the headwaters of South creek, a tributary of Little Lost river, in the northeastern part of Alturas county, Idaho, there is a volcano with a true crater, emitting hot fumes all the time, charged with sulphurous suffocating gases. There is a horse trail leading from Cedarville, via South creek, to the volcano.

Narrow Escape.
The engine Dayton lost a piece of flange a foot long from one of her front truck wheels a day or two ago. She was side-tracked at Carson, and another engine took the passenger train to Virginia.

Heavy Shippers.
Captain Overton, Superintendent of the Sierra Lumber & Wood Company, has 250 cords of wood per day thrown into Virginia now.

Measles in Genoa.
The Genoa Courier reports measles very prevalent in that town, four children in one family being down with them.

STATE PRISON NOTES.

Everything Running Well. Economy and Safety the Rule.

The new foreman in the shop at the Prison, is B. F. Green, who has put in five years in the shop. His present engagement has lasted for two years, and he was employed for three years once before. He is the Green that came to Carson in 1858 and laid out Green and Proctor's addition.

Warden Bell is getting to be an expert geologist, and rattles off the big names of rocks and strata and water lines, as well as Le Conte, Davidson, Hitchcock, Harkness, Gibbs, and others, and has sifted them down to a common-sense basis, and settled on the belief that the big tracks were made by a foot with sandals on. It would be impossible to conceal the claws, if the sloth had made them. It has a foot two or three feet long, with four inch claws. It has a tail half as heavy as the body, which drags behind and leaves a track. It would be very distinct in the deep mud there if it had been present.

A new wall has been built along the east side of the yard, 160 feet long, 12 feet high and 2 1/2 thick, which saves the wages of guard. Enough ice was put up last winter, to last the season through, a saving over previous year of \$150. Mr. Bell proposes to try it again this winter.

The men are kept quarrying in a new place in the southeast corner of the yard, where there are three feet of dirt, instead of 20 on top of the sand stone.

There are 115 prisoners. Their amusements would make an interesting chapter. Some carve match boxes and paper weights out of the rock. The Caldwell brothers have a beautiful piece of work. It is a monument about 18 inches high, with a solid base carrying a gilt cannon ball in each corner, and on each side stands a match box. The shaft is square, and on one side is the G. A. R. coat of arms in colors; on the other is a daval design, a cavalry coat of arms, an artillery design, and 1883 in a wreath. Above them, on the shaft, the American coat of arms is worked in brilliant shades of red and blue, the natural color of the stone showing the white stripes. The shaft is sheathed, the whole is surmounted by a gilded American eagle. William Henry worked a match-safe that would do a sculptor no discredit. On one side is a fox and goose, a vase and scroll and two chickens. On the top of the lid are figures in relief, of a dog with a duck in his mouth. A handsome fret forms the top of the side panel, and a scroll the bottom. He has donated it to the Episcopal Church at Carson. He was six months at work on it. Silver jewelry and hair brushes are made and sold by others. The library contains the best works of fiction, history, poetry, travels and adventure, and some science, and is well used.

Warden Bell has \$625 on deposit for the prisoners.

The health of the institution is wonderful. Many of the inmates have been diseased with liquor, etc., but hardly one of them knows a sick day now.

A Card.
Reno, October 20.

Having this day sold a half interest in my drug business to William Pinniger, I most heartily thank my many friends and the public generally for their very liberal patronage in the past, and I trust it may be continued to the new firm in the future, as we now have better facilities than ever before for doing business in the most prompt and satisfactory manner possible.

Very Respectfully,
R. E. QUINN.

Dangerously Ill.
Last Saturday's Austin Reveille says: Last night John Booth, proprietor of the Reveille, received a dispatch that George, his oldest son, could not recover and for him and his wife to come immediately if they wished to see him alive. Mr. and Mrs. Booth left for Blackfoot this morning. It is to be hoped they will find George better when they reach him to-morrow night.

Too Much Gilt.
The verdict of the coroner's jury, impeached to inquire into the cause of the death of A. B. Perry, who was found dead in his bed in Alturas county, Cal., recently, found that the deceased came to his death from apoplexy, caused by the immoderate use of strong drink.

Tickets, Gentlemen.
A railroad conductor was recently chosen deacon of a church. When it became his duty to take up a collection, he surprised the congregation by starting out with the characteristic exclamation, "Tickets, gentlemen!" The collection that day was large.

Elko County Apples.
The Times Review says: A rancher came in from Bruneau yesterday with a wagon load of apples of native growth, which are said to be far superior to California fruit. He sold them at seven cents per pound.

Uncle Sam's Sea Soldiers.
Seventeen marines, on their way from Newport, Rhode Island, to join a United States war ship in Chinese waters, passed west to-day

Eugene Markey, an old Comstocker, and recently from Fundy, Mono county, Cal., where he made something of a clean-up by the sale of a mine, was a passenger for the Bay yesterday morning.

Rough on Democrats.
"Colusa, Cal., has a fine public school. It has a corps of seven teachers, and 288 pupils." The above from a California paper indicates that in the near future, Colusa, which during the war was the banner Democratic county in that State, will be redeemed through the elevating and convincing influence of her public schools. Modern Democracy cannot stand the light of a liberal education.

Taking Their Time.
The wheelbarrow men, Feldmeyer and Guwerror, arrived from California last evening, and say they will not resume their tramp until Thursday, hoping to get up a foot-race in the meantime. Unless they strike a softer thing than they found in Truckee, it will hardly pay them.

Foot Smashed.
The 16-year-old son of J. D. Shaw, formerly of Reno, section foreman on the C. & C. at Belleville, had his foot caught and badly injured, between the draw heads of two ore cars. He was taken to Hawthorne, accompanied by his mother and sister and placed under the care of Dr. Moore.

Bit of a Row.
There was a noisy discussion, which finally resulted in a little thumping, at the shooting gallery this afternoon between S. W. Clifford ("Spider") and a man whose name was not obtained. Four dollars and a half was the difference between them.

The Ladies Tournament.
Next Wednesday will be a gala day at the race track. Two running and a trotting race, besides the ladies tournament, will be the leading features. The best riding ever seen in the State is expected to take place.

The Korean Embassy.
The Korean Embassy which passed through here a few weeks ago on their way to Washington and other eastern cities, were passengers for home on this morning's express. The entire object of their mission has not fully transpired.

On the Wing.

Mackay says he is going around the world this winter. He hasn't been in better health for 20 years.

Truckee Items.
The Republican of the 20th inst. contains the following:
Charley Barton is clearing off a large tract of land on the shores of Carnellian Bay, Lake Tahoe, and will make a hay ranch.
A. E. Brown, who is on a hunting expedition over in El Dorado county, is flooding the market with deer. Three fine ones arrived by last night's freight train.
Charles Aull, Wells-Fargo's detective, returned to San Francisco yesterday morning. He, in company with one of our local officers, made a minute examination of the scene of the Sierra valley stage robbery, but the result of their observations they studiously keep to themselves.
Captain J. H. Lapham came in from Lake Tahoe yesterday morning and took the train for San Francisco. The object of his visit is to purchase the machinery for the new boat he is building on the lake. He says the new boat is progressing finely, and will be launched about the first of May.

Hard to Digest.
The Marysville Appeal, in reply to the query as to whether catfish destroy perch, says: We know that the perch are fast drifting from our waters, but whether from eating or being eaten, we cannot determine. Some weeks ago we had an item about so many dead fish in Butte creek, and said a friend who saw them attributed it to the use of giant powder; but another gentleman informs us that he made inspection, and that each of these dead fish will be found to have swallowed a small cat or horned pout. Nothing can swallow one of them and live. Our perch had not indulged in such luxuries as small catfish. The fish put in this river, and called catfish, are a nuisance. They never grow large enough for any use, and if they are not good food for other fish, they had better be out of the river. As to the evidence that a catfish will eat another fish, it is only necessary to bait a hook with a minnow to catch a cat in a few minutes.

To-Day's Races.
The races opened at the track today with a fair attendance—as good as on the first day of the last fair. The first was a half-mile dash, won by Up and Up, owned by George Hawkins of Fort Bidwell, in 51 seconds; pools sold as follows: Today, \$20; Farewell, \$8; Up and Up, \$13, and field \$10.
In the three-quarter mile dash, Jubilee and Overland Pat sold for \$10 each; Harry B. and Lilly for \$8 each; Billy the Kid, \$3; Farewell, \$3. Billy the Kid came in winner. The track, three minute class, had not come off at the Gazette's press hour. An interesting programme has been arranged for to-morrow.

The Ball Wednesday Night.
If earnest endeavor and intelligent work will make a success, the ball to be given at Kimball Hall next Wednesday night will be a successful and pleasant affair.
Pioneer Home Sold.
Mr. Simons, who has lived so long in the pretty place at the south end of Washoe valley, has sold it to his son-in-law, Johnny McEwen.
Very Sick.
Miss Sanford, principal of the Bishop's school, is completely prostrated from nervous exhaustion, consequent upon over-work.
Lumber Trade.
The unusual amount of lumber being shipped from the Sierras to points along the C. P. east of here, indicates thrift somewhere.
Don't Forget.
Kaufman's string band will furnish the music for Holeworth and Palmer's social dance at Kimball Hall to-night.

Poland Pigs.
A lot of Poland pigs, consigned to George Freeman, Surprise Valley, arrived this morning. They are beauties.
Fine Stock.
A car load of Governor Stanford's thorough-bred horses was attached to the west-bound express this morning.

SCROFULA

and all scrofulous diseases, Scars, Erysipelas, Eczema, Itch, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores. "Some months ago I was troubled with scrofulous sores (cancers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me."

Yours respectfully, MRS. ANN O'BRIAN, 148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilde of 78 East 64th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

It is remarkably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists; price \$1, six bottles for \$5.

THAT HACKING COUGH can be quickly cured by Shiloh's Cure. We guarantee it. Sold by Osburn & Shoemaker.

WASHINGTON, N. J.—Hon. D.

Beatty, our Mayor says: "From

my knowledge of St. Jacobs Oil,

the great pain-cure, it is unequalled

as a remedial substance."

An Editor in Luck.—John Den-

Review, the talented editor of the Times-

Review, is engaged to a lady in San

Francisco who has \$2,000,000 in her

own right in U. S. Bonds. We con-

gratulate the editor. In case he en-

ters the Congressional fight, his sack,

while not really a necessity in a

strictly virtuous Bourbon campaign,

will at least not interfere with his

canvass.—Carson Appeal.

The New York Times says, of the

County Democracy and its surrender,

and that Tammany Hall is once more

undisputed master of New York. The

Tribune says the Citizens Committee

has probably destroyed any chance

there may have been for a union on

local officers against Tammany. It

has been abandoned. Its Democratic

Chairman, Condit, had previously

paid a visit to Albany. The Com-

mittee might as well have been dis-

honored as stupid, and its heedless

disagreement with the Republicans

was either stupid or dishonest.

Senator Brown, as President of the

State Board of Georgia and head of

the new Georgia Railroad Syndicate,

announces that his policy, under the

conditions presented by the late

Civil Rights decision, will be more

than ever to see that the colored man

shall have his full rights upon the

trains. He says the colored people

will not be permitted to go into the

cars intended for white ladies, nor

to invade those of the white people

who do not desire their society but

that comfortable cars will be arrang-

ed on the Western and Atlantic for

both races, where they can travel

comfortably and safely. The con-

ductors of his trains, under his or-

ders, will no more permit white peo-

ple to intrude on colored people

than they will permit colored to in-

trude on the white people. His orders

will be stringent to the conductors

to see that colored people paying the

same prices as the whites shall have
